## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of wood, carbonate and silane in the reply filed on 6//05/06 is acknowledged.

It is noted that the applicants stated that claims 1, 2, 7, 8, 13-22 and 29 are readable on the elected species. The examiner disagrees with the applicants with respect to the elected species of silicon -containing material because claims 15-19 and 21-22 recite different specific silicon containing material. It appears that the applicants either did not properly elect a single claimed species of the silicon-containing material or claims 15-19 and 21-22 are not readable on the elected species.

It is also noted that the species "a silane" can be interpreted as a genus to all other specifically claimed silicon - containing materials and that the applicants intended to elect all the specifically claimed silicon containing materials. Such is not an election of single species.

Thereby, the examiner requests election of a single species of the silicon-containing material.

The claims recite a silane (claim 14) and an alkoxy functional silane (claim 16) as genres. The election between these is requested.

If the applicants elect a silane, then the election of the specific claimed species of the claimed silane is requested.

If the applicants elect an alkoxy functional silane, then election of a single species of the claimed alkoxy functional silane is requested.

Art Unit: 1746

2. The reply filed on together with a Petition filed on 6/5/06 is not fully responsive to the prior Office Action because of the matter(s) indicated above. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
